

# TS-AFD

## Audio Fiber Cable Detector

### KEY FEATURES

- Help to find the target cable easily
- Display the changes of waveform after cable found
- Listen fiber cable mechanical disturbance
- Help to find the target fiber cable easily
- Easy to operate for beginners and experts
- Widely application , based on most telecom user's actual needs

### SPECIFICATIONS

Model	TS-AFD
Dynamic Range	18dB
Application Fiber	SM
Wavelength	1550nm
Display	3.5 inch TFT color LCD
Test distance	40/90km
Laser power	0-3dBm
Earphone port	3.5mm
optical reflector	return loss<2dm FC/PC connector
Power	Built - in rechargeable battery
Working Time	> 8 hrs
Size(H*W*D)	197mm*107mm*67mm
Weight	0.75kg
Storage Temperature	-20 -- +60 , < 90%RH
Operating Temperature	-10 -- +50 , < 90%RH

### ACCESSORIES

Manual*1	Calibration Certificate *1
Fiber reflector *1	Carrying bag *1
AC/DC adapter *1	Headphone *1
