

## DUPLICATEUR RJ45

## Overview :

If running new cable is too expensive or entirely not feasible this CAT5e Splitter will allow you to run 2 active network connections using a single CAT5e cable. Alief's CAT5e Splitter allows you to run 2 active connection over a single cat5e cable by splitting the pairs into 2 separate connections. Running new cable along side an existing infrastructure can be an expensive and time consuming endeavor. With this CAT5e Splitter you can effectively double your network capacity by turning a single network run into 2 active network connections. Since 2 Splitters are required (one on each end) to successfully split a network connection this product comes as a Pair of Splitters.

## Features:

- Compatible with CAT5e and CAT6 Cable
- Requires 2 Open Ports on your Switch or Router
- Actively splits a single cable into 2 usable connections
- No need to run additional cable

## Specifications:

## Electrical:

- Voltage rating:125 vac rms
- Current rating :1. 5amp
- Contact resistance : 100milliohms max
- Insulation resistance:100 megohms min @500 vdc
- Dielectric strength:750 vac rms 60hz, 1min

## Environmental:

- Storage:-40°t0+85°
- Operation : 0°t070°

## Mechanical:

- Housing material:pc
- Insert material:fame retardancy abs
- Pcb material:fr-4 T=1. 6mm
- Contact material:phosphor bronze stamp pin t=0. 30mm
- Idc contact material:phosphor bronze t=0. 50mm with tin plating
- Rj45 jack ; life: 750 times min
